Intermediate

## PROFESSIONAL SUMMARY

I have 11 years of experience as an executive manager and civil engineer specializing in supervising the design of concrete and steel buildings, aircraft hangars, and warehouses for numerous clients throughout Saudi Arabia.

## WORK HISTORY

Aug2025-Current

**Civil engineer - Middle East Dimensions for Engineering Company**, Riyadh, Saudi Arabia

- Ran structural engineering calculations to verify compliance with applicable codes and standards.
- Identified constraints and possible solutions to minimise structural engineering project delays.
- Drafted and modelled designs to assess function and feasibility ahead of construction.
- Reviewed calculations and design documents to assure conformance with quality standards.
- Continuous improvement mindset driving exceptional outcomes.
- Robust quality assurance processes for top-notch deliverables.
- Client-centric approach ensuring satisfaction and loyalty.
- Comprehensive risk assessment and mitigation strategies.
- Skilled in project management and team leadership.
- Strong focus on sustainability and eco-friendly practices.
- Innovative designs that enhance efficiency and reduce costs.
- Proven track record of delivering projects on time and within budget.
- Expertise in diverse engineering solutions for various industries.

June 2024 – Aug2025

**Civil engineer - Rayhana Al Rabie Agricultural Company**, Jeddah, Mecca Region

- Supervising project implementation
- Managing staff
- Submitting and reviewing bids on the Etimad platform

October 2022 - June 2024

**Civil engineer - Arkaz Abinaa Engineering Consulting Company**, Al Bahah, Al Bahah Region

- Set daily priorities and communicated targets, motivating teams to achieve them.
- Delegated tasks and reacted to changing workloads to maintain efficient operations.
- Managed inventory and receiving operations to maintain optimal stock levels and meet expected demands.
- Rotated merchandise and displays to feature new products and promotions.

November 2016 - January 2022

**Executive Director- City Level for Engineering Consulting Company**, Abha, 'Asir Region

- As a subcontracted technical inspector for our company, we worked with TÜV in the southern region and supervised more than 300 buildings.
- Expertise in delivering innovative engineering solutions
- Proven track record of successful project management
- Enhanced client satisfaction through tailored consulting
- Streamlined processes resulting in cost savings
- Collaborated with multidisciplinary teams for optimal results
- Implemented cutting-edge technology for efficiency
- Achieved project milestones ahead of schedule
- Strengthened client relationships through effective communication

April 2014 - October 2015

**Structural design engineer - Ghayat Engineering Consulting Office**, Hafar Al-Batin, Saudi Arabia

- Ran structural engineering calculations to verify compliance with applicable codes and standards.
- Identified constraints and possible solutions to minimise structural engineering project delays.
- Drafted and modelled designs to assess function and feasibility ahead of construction.
- Reviewed calculations and design documents to assure conformance with quality standards.
